Ricardo Duenas
Administrator
Guam Environmental Protection Agency
P.O. Box 2999
Agana, GU 96901

Dear Mr. Duenas:

Section 103(c) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 requires all past or present owners or operators of hazardous waste treatment, storage, or disposal sites to notify EPA of the site's location. This notification was due June 9, 1981. EPA Region 9 has received approximately 750 site notifications to date, and has entered these sites into a national data system established to track these site (NOTIS). A printout showing the sites reported in your state is enclosed. Those notifications submitted with a claim of confidentiality are not included.

As you will see, the standard printout from NOTIS shows only the name and location of the site and name and address of the notifier. We are presently attempting to develop a printout which will provide you with a replicas of the submitted form. We will provide this to you as soon as it is available.

Should you or your staff have any questions regarding NOTIS, please contact Bill Wilson at (415) 556-1407.

Sincerely,

Jake Mackenzie, Superfund Coordinator

Enclosure
